

This is in regards to Sinclair Broadcasting Group's decision to force their 62 stations to preempt regular programming to air "Stolen Honor."

Such blatant abuse of the public airwaves to support the political views of the station owners is unacceptable. Moreover, mandating that nationwide stations each play the same programming impedes local control of the airwaves and does not serve the interests of local communities.

As an American, and therefore partial owner of all our airwaves, I would like to request the FCC not to renew the licenses of Sinclair stations when they come up for renewal.

Thank You.
